October 17th 2008

October 17th is the final day of Sequences 2008. On the last day of the festival Sequences presents Airwaves offvenues, art opening of works by artist Rósa Sigrún, performance by FASTWÜRMS and an audio/visual concert.

The audio/visual concert is in Iðnó in collaboration with Iceland Airwaves and Bedroom Community. The event is dedicated to the dynamics between experimental film/video art and alternative music in a live setting.

Transforma -An experimental film collective from Berlin joins forces with Australian noise wizard Ben Frost and experimental music collective Bedroom Community in an improvised performance comprised of Ben's music and Transforma's visuals.

French visual artist Yroyto runs an interesting video label in Paris called ExplosiveTV, dedicated to experimental video works. His offering for Sequences is an interactive audio/visual performance, celebrating live sound and video manipulation. Supported by The Goethe Institute and The French Embassy.
